

Mayor's office

Following several meetings with the Organizing Committee, having the honor of hosting an event of such great appeal which is the XXX° International Gold Wing Italy Treffen, makes us particularly proud.

Aymavilles (www.aymavilles.vda.it), small community of 2,092 residents, is land of history, arts and archeology but it's also land of wine, with its 37 hectare vineyard and its 5 skillfully cultivated wine cellars where the wines of excellent quality are produced.

Aymavilles, locality situated 645 above sea level, is located within the National Park of Gran Paradiso (www.pncip.it), 8 km away from Aosta and is an ideal starting point for all sorts of excursions in the wide valleys from where you can be impressed by the most beautiful mountains in the Alps. We're on hand to those who do want to experience the thrill of climbing down through the rapids and the drops of the Dora. The Rafting Center of Aymavilles (www.raftingrepublic.com) is available to accompany adults and children in an exciting and unique experience.

We are organizing, for you, a residence that can amaze friendliness, good food, fine wines, musical and cultural traditions that make your stay in Valle d'Aosta worthy of the beauty that this Region is able to offer.

Looking forward to our meeting, kindest regards.
